

# GREE Airy

## Continuous Heating Technology

Ensure constant-temperature heating for continuously 10h. Say goodbye to temperature fluctuations. Enjoy a seamless and comfortable experience with smaller and negligible temperature difference.

**10-Hour**  
Continuous heating without stop

Defrosting time about  
**2-3min**

## AI for maximum efficiency

Airy adopts the AI + intelligent inverter associated control scheme, and pioneers the G-learning intelligent algorithm.

With Gree's independently-developed AI technology, annual power consumption is reduced by 10%!

## 6-Stage Air Purification

- LEVEL 1:** Dust prevention
- LEVEL 2:** Built-in filtration
- LEVEL 3:** Air inlet UVC sterilization
- LEVEL 4:** Deep evaporator cleaning
- LEVEL 5:** Cold Plasma Air outlet purification
- LEVEL 6:** Self-cleaning of the outdoor unit

## Independent Smart Dehumidification

Airy stands out with its smart humidity control, creating a water-retaining film for skin moisture. It caters to user preferences, operates on personalized humidity settings, and includes a continuous dehumidification function, ideal for daily tasks like drying clothes.

Features:  Standard  Optional
